

ICONIA

the tiny pool

 **ICONIA**

BALANCE OF SHAPE AND MATERIALS

BETWEEN ART AND NATURE

Iconia is a decorative object that comes from a long experience in the swimming pool sector. Several thousands of installations have allowed us to create an icon of design and wellness able to embellish any environment.

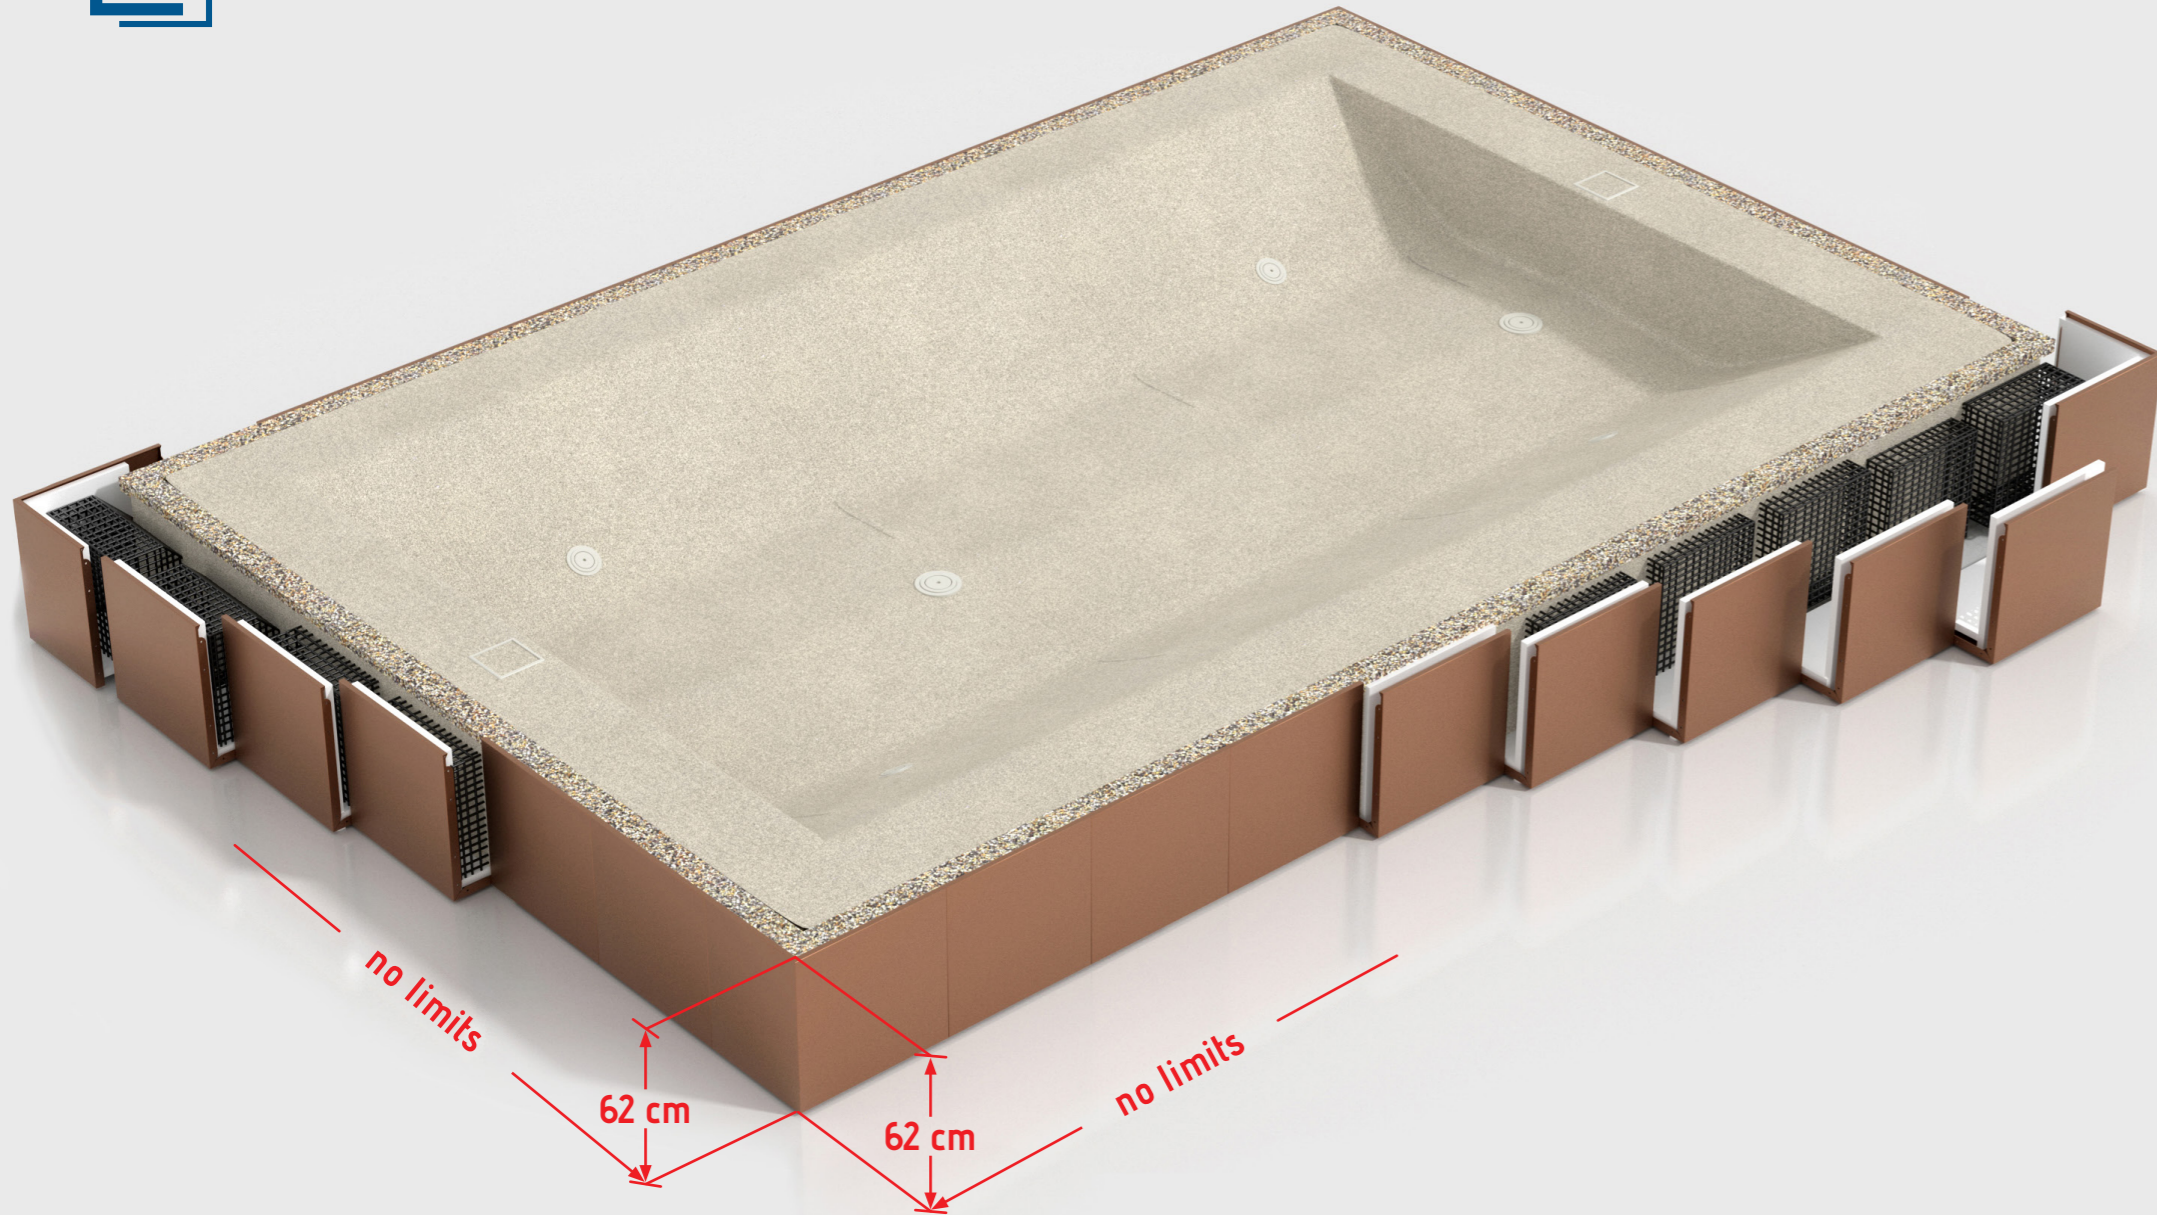

Coating

Low environmental impact technology, extraordinary for waterproofing quality and structural performance.

TECHNOLOGY & NATURE

Geometrical decorative features

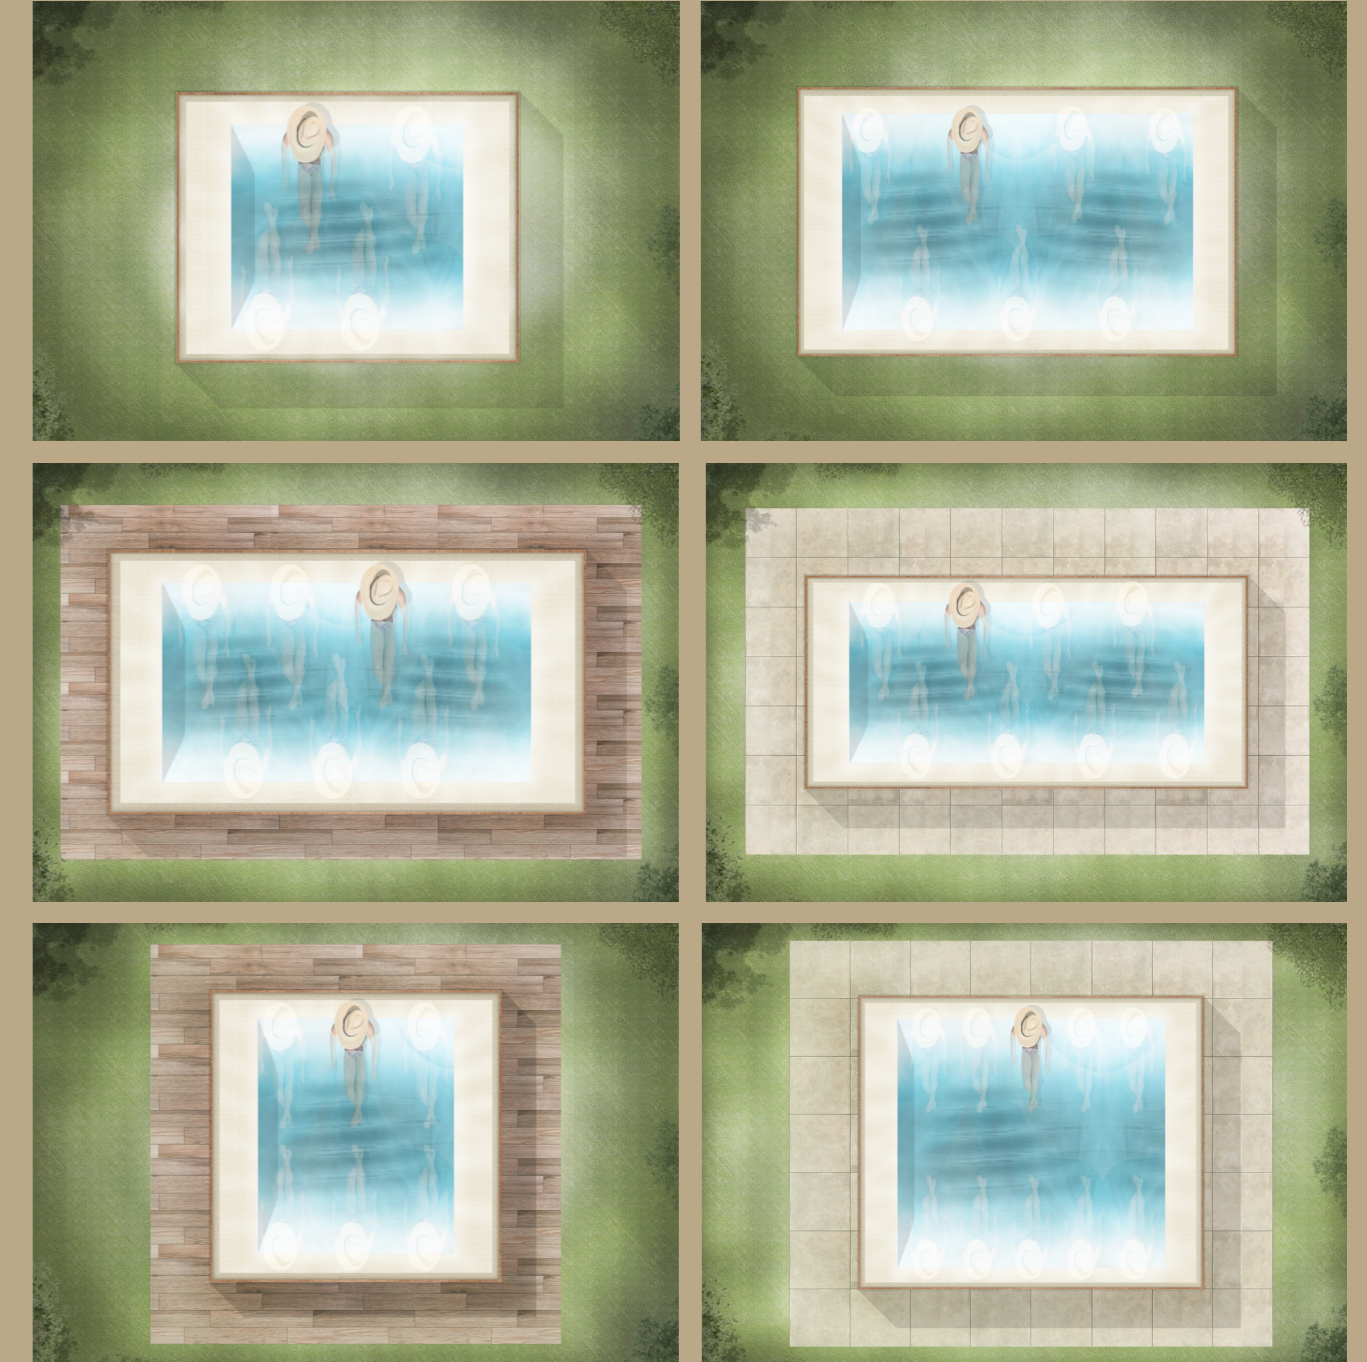

Design and shapes blended with natural materials. A perimeter structure in corten coloured galvanized steel respects the proportion of volumes. The perimeter overflow can become a seat on which the water disappears into a perimetric compensation tank.

TAILORED FOR ANY REQUEST

No space limit

Iconia's modular technology frees you from the space limitations of traditional pools. Iconia is built on site and there is no limitation to bring the material on site.

Microban Protection

The Iconia coating is protected by Microban® SilverShield® antibacterial technology. Microban® provides a valuable and efficient tool in the fight against bacterial growth.

ICONIA HEALTH SAFETY

Antibacterial surface

The natural stone is treated with anti-bacterial technology to ensure maximum safety. The filtration system ensures that the water is always crystal clear.

MYLAGO GOLD

A blend of different quartz grain sizes mixed to recreate the reflections of exotic seas.

Botticino

Perimetral inserts with Botticino pebble.

MYLAGO CLASSIC

A blend of different quartz grain sizes mixed to recreate turquoise water reflections.

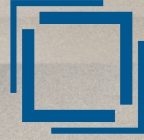

Ticino

Perimetral inserts with Ticino pebble.

PERFECT BLENDING WITH ENVIRONMENT

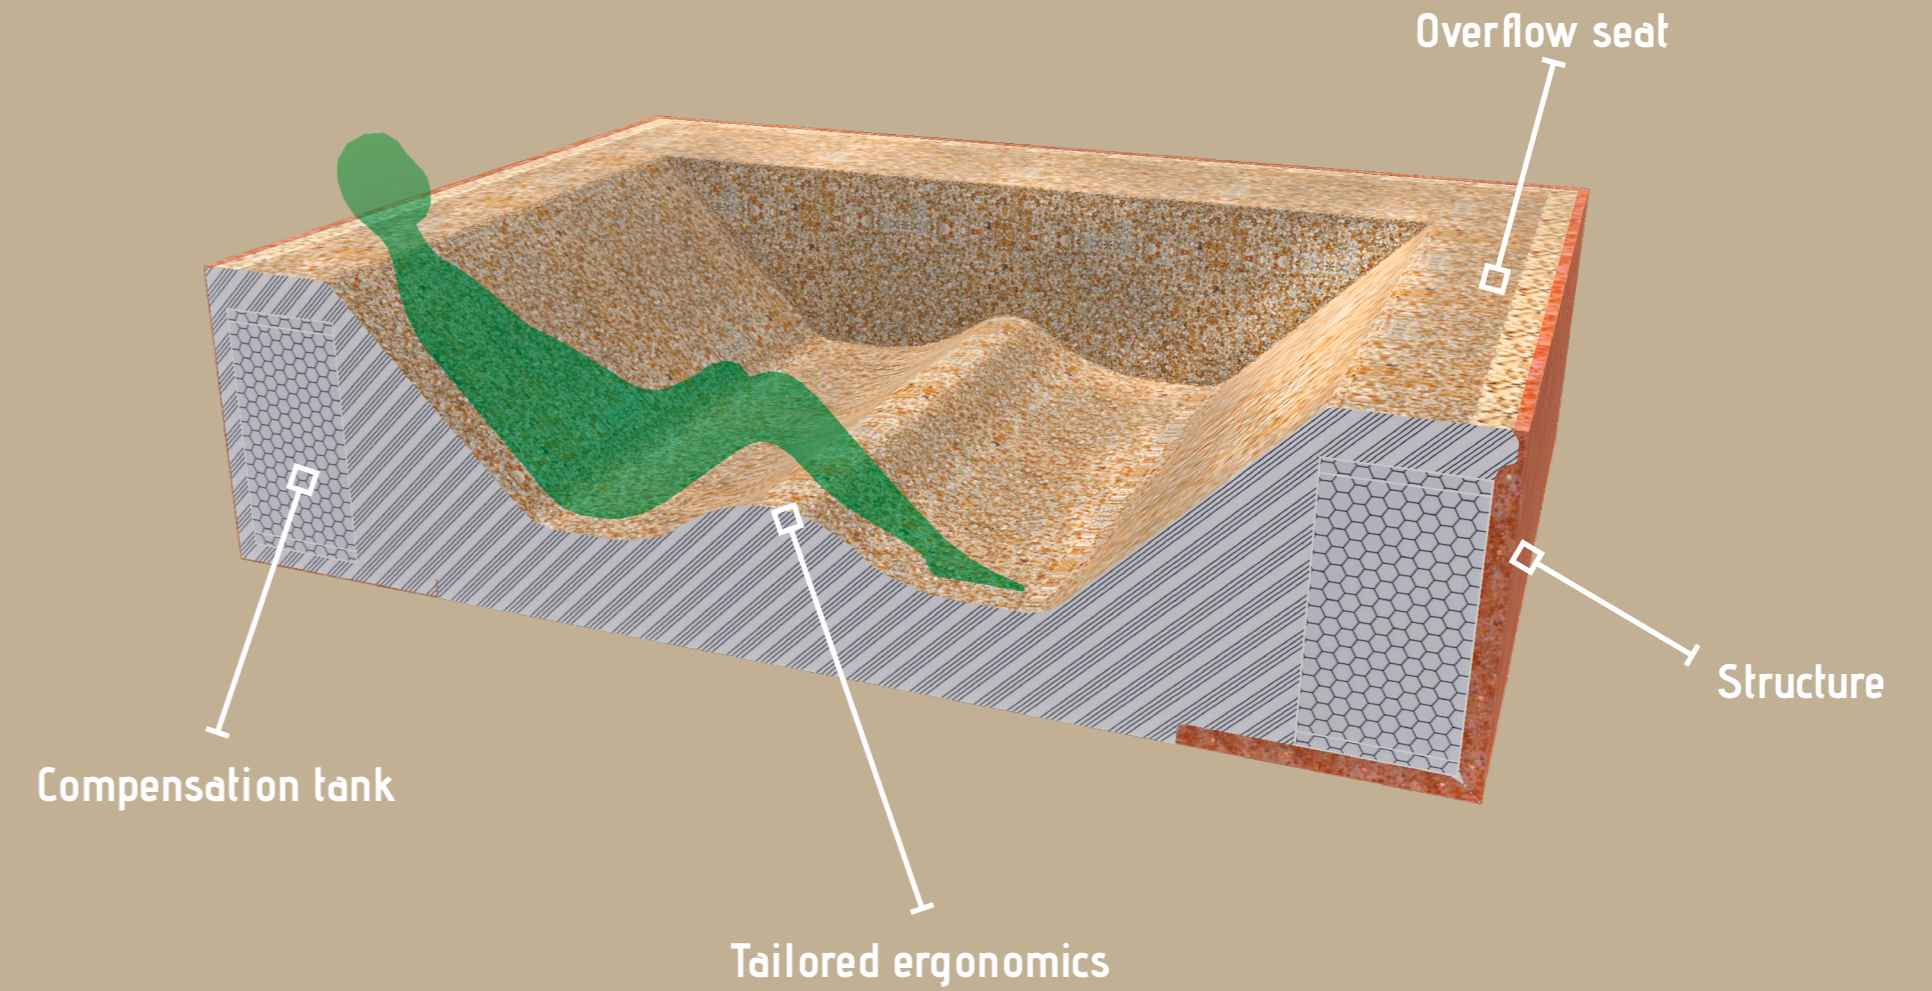

Design overall features

Iconia is designed to fit any space without ever being intrusive. It is possible to apply to external surfaces the same coating of the tiny pool. The inside of the pool is lined with quartzite of several colors and it is enhanced by the reflections of water.

FULL CUSTOMIZATION

The internal morphology is customized according to the size of the pool and to the client's requests. The Iconia maximum height of 62 cm avoids the vertical volumetric clutter always unpleasant in a home environment. The chaise longue seat offers great comfort to all swimmers.

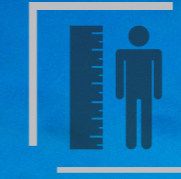

ICONIA & WELLNESS

All year around relax

At any time of the year, Iconia offers a spa-
ce dedicated to your relax. Aerotherapy
beds, hydromassages jets, LED lighting
and water heating allow you to experience
the pleasure of the Iconia all the time.

ICONIA SPA

Hotels, wellness centers and accommodation facilities offer their customers a unique experience.

ECO-FRIENDLY TECHNOLOGY

No code permits required

The construction technology and the environmental compatibility of the materials allow Iconia to be installed in any environment without any code permits needed.
